Firearm Safety Certificate - Manual for California Firearms Dealers and DOJ Certified Instructors Sep 28 2020 The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Since there are usually an enormous number of candidates who apply for the position, difficult written examinations are an effective way to narrow the field. There is no excuse for a firefighter candidate to fail a written exam. Those who are committed to their goal will plan and prepare for the written exam to improve their chances of success. While there are other self-help books devoted to helping aspiring firefighters, they only provide questions and answers. These books are useless if you do not understand how to work out the problems. Smoke Your Firefighter Written Exam goes beyond providing sample questions and answers. It teaches the reader the basic rules and principles behind the questions; in other words, how to solve each complex problem. Each section begins with an overview of how to solve the problem. The reasoning behind the correct answer is presented in clear, easy-to-understand language. The reader will become proficient in: mathematics (word problems, geometry, addition, subtraction, multiplication); mechanical aptitude (gears, levers, pulleys, incline planes, screws); language (reading, spelling, grammar, vocabulary); perceptual ability; spatial relations; matching parts and figures; map reading.
