Making Christian History May 24 2020 Known as the “Father of Church History,” Eusebius was bishop of Caesarea in Palestine and the leading Christian scholar of his day. His Ecclesiastical History is an irreplaceable chronicle of Christianity’s early development, from its origin in Judaism, through two and a half centuries of illegality and occasional persecution, to a new era of tolerance and favor under the Emperor Constantine. In this book, Michael J. Hollerich recovers the reception of this text across time. As he shows, Eusebius adapted classical historical writing for a new “nation,” the Christians, with a distinctive theo-political vision. Eusebius’s text left its mark on Christian historical writing from late antiquity to the early modern period—across linguistic, cultural, political, and religious boundaries—until its encounter with modern historicism and postmodernism. Making Christian History demonstrates Eusebius’s vast influence throughout history, not simply in shaping Christian culture but also when falling under scrutiny as that culture has been reevaluated, reformed, and resisted over the past 1,700 years.

Corbly-Corfman and Bachlor-Berry Families Mar 22 2020 The Corbly-Corfman and Bachlor-Berry Families is a four part genealogy of each of the families; each part contains illustrations, bibliography, and index. This book establishes the ancestry of Earl Jackson Corbly and Ina Fay Bachlor

Corbly who were married in 1927. It was written for their descendants, but is also a valuable genealogical source for each of the four family lines. Pastor John Corbly is traced from 1733 in his home in Dunshaughlin, County Meath, Ireland. Johann Philipp Korffmann is traced from 1653 in his home in Alzey-Stein Bockenheim, Germany. John Batchelor is traced from 1543 in his home in Chesham, Buckinghamshire, England. And David Berry is traced from 1630 in his home in Saggart, Leinster, County Dublin, Ireland.

From Synagogue to Church: The Traditional Design Mar 26 2023

The designs of synagogues and churches are acknowledged to be very alike. But the designers' procedure was confidential, and so far standard explanations have been unsatisfactory. A synagogue should express heavenly values with earthly materials. This combination was in fact expressed in numbers, for, as Plato said, they linked heaven and earth. Scripture described both the Jewish Tabernacle and Temple with a wealth of numbers. Proportions based on these numbers were used to design synagogues. Only a few Jewish documents survive, but they reveal a symbolism, which Christians sometimes repeat. The synagogue sanctuary was designed to contain the 'Holy Ark', and the mosaic floors reveal the point 'Before the Ark' for the prayers and readings. These places faced each other, with the idea that God was facing his people. The synagogue was seen as facing heaven and in church buildings Christians repeated the same proportions. This was a joint tradition among Jews and Christians. It was easy to design, was carried out secretly and accurately, and - without a computer - was extremely hard to unravel. This book, for the first time, does just that.

The Demonic in the Political Thought of Eusebius of Caesarea Oct

29 2020 *The Demonic in the Political Thought of Eusebius of Caesarea* explores how Eusebius of Caesarea's ideas about demons interacted with and helped to shape his thought on other topics, particularly political topics Hazel Johannessen builds on and complements recent work on early Christian and early modern demonology. Eusebius' political thought has long drawn the attention of scholars who have identified in some of his works the foundations of later Byzantine theories of kingship. However, Eusebius' political thought has not previously been examined in the light of his views on demons. Moreover, despite frequent references to demons throughout many of Eusebius' works, there has been no comprehensive study of Eusebius' views on demons, until now, as expressed throughout a range of his works. The originality of this study lies both in an initial examination of Eusebius' views on demons and their place in his cosmology, and in the application of the insights derived from this to consideration of his political thought. As a result of this new perspective, Johannessen challenges scholars' traditional characterization of Eusebius as a triumphal optimist. Instead, she draws attention to his concerns about a continuing demonic threat, capable of disrupting humankind's salvation, and presents Eusebius as a more cautious figure than the one familiar to late antique scholarship.

Between Concept and Identity Jul 18 2022 The identity of places of worship is one of the most difficult problems faced by religious architecture at the start of this new millennium. Contemporary globalising experiences demand, peremptorily, a reflection, both conceptual and situational, on the origin of objects, people and institutions. Nevertheless, the chance of these migration flows annihilating already-existing religious identities is perceived as a problem. This problem is directly linked to the survival of architecture as a system carrying a material representation of the divine and constituting a self-reference system for the community of believers. Therefore, it is important to define the extent to which the new religious architecture has given room to an abstract type of formal experimentation which is disconnected from social reality. Does this

architecture maintain its bridging, sacramental value, or, on the contrary, has it given way to the conceptualist trends still alive in the artistic world? Is metaphor a valid concept for the Christian religion? Is there an essential aspect linking this architecture to the centuries-old tradition of the Catholic Church? Different architectural, pedagogical, exhibition and formal initiatives have arisen in recent years and it is necessary to get to know them, with the purpose of understanding where contemporary religious architecture is heading in its eternal search for a permanent identity.

Identity and Territory May 04 2021 Throughout history, the relationship between Jews and their land has been a vibrant, much-debated topic within the Jewish world and in international political discourse. Identity and Territory explores how ancient conceptions of Israel—of both the land itself and its shifting frontiers and borders—have played a decisive role in forming national and religious identities across the millennia. Through the works of Second Temple period Jews and rabbinic literature, Eyal Ben-Eliyahu examines the role of territorial status, boundaries, mental maps, and holy sites, drawing comparisons to popular Jewish and Christian perceptions of space. Showing how space defines nationhood and how Jewish identity influences perceptions of space, Ben-Eliyahu uncovers varied understandings of the land that resonate with contemporary views of the relationship between territory and ideology.

English Church Dedications Mar 14 2022 Church dedications are as widely used as they are little studied, yet their histories are often obscure and complicated. Frequently forgotten after the Reformation, they were revived on the eighteenth and nineteenth centuries with many guesses and mistakes, resulting in numerous alterations. Church history cannot safely be based on the dedication in use today. Part One of the book surveys their history in England from Roman times to the present day. Part Two is

detailed list of all 800 ancient parish churches and religious houses in Cornwall and Devon. It shows when their dedications first occur, the changes and misunderstandings that have happened, and the dates of parish feast days. Cornwall is a country of Celtic church dedication, whilst Devon's resemble this of the rest of England, so the book will be helpful in understanding dedications in both traditions.

The Shape of Luke's Story Mar 02 2021 Because of Luke's unique literary achievement in the Gospel of Luke and Acts, these two works raise a variety of interesting and important issues for the exegete. In this important collection of essays, Tannehill demonstrates why he is has been in the forefront of Luke-Acts research for more than three decades. His nuanced approach to the intersection of literary, theological, and social features in the texts marks these as required reading for any interpreter of the gospels. Kinzua Oct 21 2022 The future of the valley of the upper Allegheny River was predetermined in the 1930s with talks of flood control. As time drew nearer for construction of Kinzua Dam, even the last protesters conceded their world was doomed. It was not the end of the world, but it

was the end of their world, their way of life--for how can you infuse hope into the spirit of man when all is ordained to be taken from him? To those who intimately knew these times, perhaps the valleys are better known by what is gone than by what remains today. True, the past cannot be captured, but we may forever ponder the times lost--villages abandoned; farms without green fields; trees cleared and burned, as the fires set by the Corps rid the valleys and remote hamlets of the residue of human life. For centuries the Allegheny hills acted as stewards guarding, perhaps falsely, the destiny of the inhabitants. Kinzua Dam held back the Allegheny River as everyone and everything previously known vanished beneath it. As some witnessed the extinction of a valley, others marveled at the engineering of a great dam--for as Cornplanter discerned--upon the eternal scroll, time writes the passing.

Russian Orthodoxy Under the Old Regime May 16 2022 Russian Orthodoxy under the Old Regime was first published in 1978. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. In this book, which is especially suitable for course use, eleven scholars examine one of the most important institutions of imperial Russia, the Orthodox church in the two centuries before the Russian revolution. The material is arranged in two sections, the first devoted to Orthodoxy's role in Russian social and cultural life and the second dealing with the church's relationship to the tsarist regime.

General MacArthur Speeches and Reports 1908-1964 Sep 27 2020 The two-year search for General Douglas MacArthur's speeches and reports was truly a labor of love. My Administrative Assistant, Ellen Schaefer, and I culled over 1,000 sources including memories, biographies, histories, military magazines such as the Army and Air Force Journals, unit histories, commercial magazines and newspapers. Magazines included such publications as National Geographic, Life Magazine and many esoteric less circulated literature such as Military Magazine, Retired Officers Magazine, Air Force Magazine and so many others. We received guidance and assistance from such sources as the U.S. Military Academy, the Engineering School at Ft. Leavenworth, the Command and General

Staff School at Leavenworth, the Army War College, the MacArthur Archives Director James Zobel, the Library of Congress, the War Department; the sources seemed endless. We do believe we were able to capture all the major public speeches and reports covering MacArthur's truly productive years from 1908 through 1964. Contains more than 125 speeches/reports. It will be interesting to note, MacArthur established his personality early in his military career and never veered from this. His admonition from his Mother when MacArthur was a student at West Point was, never cheat, never lie, never tattle"". Adhering to this edict MacArthur offered to resign from the Academy rather than answer questions from the Academy panel investigating hazing and harassment by a group of fellow students. MacArthur continued to develop his hard line against political and military intrigue by resolving to always do what he believed right even if he knew no one was watching. Further he was determined never to refuse to carryout the order of a senior officer - never be insubordinate to constituted authority. ""

A Vision Splendid Feb 25 2023 During his forty-five years as a Latter-day Saint apostle and nineteen years as the prophet, David O. McKay gave thousands of speeches, including hundreds of temple and chapel dedications, civic addresses, funeral sermons, and General Conference and other Church-related talks. Many of these speeches contain some of the same prose and poetry, but no two speeches are the same. All of these discourses were written by McKay himself, and virtually all of them were typed, organized, and kept in large, legal-sized leather binders by Clare Middlemiss, his long-time personal secretary. His choice of prose reveals his favorite authors and literature, a glimpse into his personal library. It also conveys his ideals and his fervent belief in their truth. Never before, and not since, has The Church of Jesus Christ of Latter-day Saints had a prophet so well versed in secular as well as scriptural prose. McKay's intellectual and spiritual worlds meshed as he recited with ease the poetry of Edgar A. Guest, John Oxenham, and Joaquin Miller, as well as the patriotic pronouncements of George Washington, Patrick Henry, and

Benjamin Franklin. In one speech he seemed to have studied Scottish lore, and in another he effortlessly extolled current US statistics on crime or divorce. He was at times romantic and wistful, and at other times firm and warning. In *A Vision Splendid: The Discourses of David O. McKay*, Anne-Marie Wright Lampropoulos culls from the vast records of McKay's discourses that Middlemiss kept and groups certain categories of speeches together: dedications, civic addresses, Church discourses, and funeral sermons. Each chapter broadly analyzes a category and then includes samples of illustrative full speeches. This analysis and compilation illustrates how McKay looked to poignant prose for a sense of his own personal identity and inspiration, as well as the larger identity and inspiration of Church members.

Kenosis Creativity Architecture Feb 01 2021 *Kenosis Creativity Architecture* locates and explores creativity's grounding in the ancient concept of kenosis, the "emptying" that allows creativity to happen; that makes appearance possible. It concretises that grounding through architecture—a primal expression of human creativity—critically

examining, for the first time, kenotic instantiations evidenced in four iconic, international projects; works by Kahn, Pei, Ando, and Libeskind. Then, in a final turn, the potentiality of architecture's own emptying is probed. Architect and author Randall Lindstrom draws on Western and Eastern philosophy, including that of Heidegger, Levinas, Derrida, Vattimo, Nishida, and Nishitani, as well as on the theology of Christianity, Judaism, and aspects of Buddhism, Hinduism, and Islam. Every chapter expands the argument that, if responsiveness to our world is taken seriously—if proper and sustainable responses are to be realised—then a deeper understanding of creativity, and so kenosis, is essential. This book opens-up a way of thinking about creativity and humanity's readiness to be creative. It thereby presents a crucial enquiry—at the nexus of architecture, philosophy, and theology—for researchers, graduate and postgraduate students, and practitioners alike.

Insiders and Outsiders Jun 05 2021 The indigenous population of Deià has lived side by side with increasing numbers of foreigners over the past century, and what has occurred there over this period offers an example of how the population of one Mediterranean village has gained full advantage from the economic opportunities opened up by foreign investments, without losing the fabric of social relations, the meaning and values of their culture. Deià has been able to continue as a community with its own symbolic boundaries and identity, not in spite of the outsiders (some of whom are well-known literary personalities, artists and musicians) but because of their presence. This study shows how, under the impact of wars, migration, national politics, global economic and technological developments and especially tourism, the categories of Insider and Outsider are contracted and expanded, and reinterpreted to fit the constantly changing "reality" of the society; they assume different meanings at different times. The conflicts and resulting compromises over a hundred-year period have provided a sense of history that allows each group to define, develop, adapt and sustain their sense of belonging to their own communities.

Proclamation! Jan 24 2023 At long last here is a textbook for the basic public speaking course--one that integrates a Christian worldview with up-to-date scholarship in the field of communication. **Proclamation!** covers the standard speech types: informative speech, persuasive speech, and ceremonial speech. In addition, Blake J. Neff recognizes that Christians need to know how to deliver an edifying speech and a personal testimony speech. Neff acknowledges that one of the reasons to study public address at the university level is that God has commanded His people to "always be prepared to give an account (1 Peter 3:15). **Proclamation!** prepares Christians to speak not only as one to many but also as members of interpersonal or small groups. Christian teachers of public speaking will appreciate the assistance this book offers toward integrating faith with learning. Students will applaud the practical and readable approaches found in **Proclamation!**

The Spiritual-Industrial Complex Dec 19 2019 This fascinating volume argues that American leaders in the early Cold War considered the conflict to be profoundly religious, that they saw Communism not as godless but as a religion fighting faith with faith. As a result, they deliberately used religious beliefs and institutions as part of the plan to defeat the Soviet enemy. Jonathan Herzog offers an illuminating account of the spiritual-industrial complex, chronicling the rhetoric, programs, and policies that became its hallmarks.
